

SIZE: $\phi 355\text{mm}$

- Impeller Material: Sheet aluminium
- Bearings: Maintenance free ball bearings
- Protection: TOP wired internally
- Direction Of Rotation: CCW (seen on the leads)
- Type Of Protection: IP23
- Mode Of Operation: S1
- Insulation Class: F
- Amb. Temp.: -25°C - +45°C

Major Characteristic Parameters

| Model Type | Voltage (V) | Frequency (Hz) | Capacitor (uF/VAC) | Speed (RPM) | Current (A) | Power (W) | Airflow (m ³ /h) | Noise (dB(A)) |
|-----------------|-------------|----------------|--------------------|-------------|-------------|-----------|-----------------------------|---------------|
| K-AC355-R230-15 | 230 | 50 | 8/450 | 1350 | 1.1 | 250 | 2950 | 69 |
| | | 60 | 10/450 | 1550 | 1.9 | 420 | 3390 | 72 |

Note: Nominal data in free air
